

AquaPure™ Bio NP

The Aquapure™ Bio NP is a balanced blend of organic and inorganic nitrogen and phosphorus compounds that are readily available nutrients for bacteria growth and stabilization. The Aquapure™ Bio NP also provides trace levels of all the necessary chelated minerals that promote cell growth. In addition to minerals, Aquapure™ Bio NP provides additional alkaloids that are essential for the uptake of insoluble oxides. Use of the Aquapure™ Bio NP provides a balance of micro and macro nutrients which promote vigorous cellular enzyme production and rapid cell growth.

Physical Specifications

Form..... powdered blend, free- flowing
 Constituents..... organic and inorganic materials
 Color..... white to off white
 Specific gravity.....0.8
 Shelf Life.....2 years

Storage

Recommended to keep in a dry place with temperature range of 10-40 degrees C.

Directions for Use

Easy to use free flowing powder can be added directly to lagoon, oxidation ditch or aeration tank. In the case of a trickling filter, Aquapure™ Bio NP can be added to the influent according to your need for nutrient feed. This product does not require any pre-hydration and is readily available to microbes.

Operating Conditions

Temperature for most effectiveness.....10-40 degrees C.
 pHbest use is at 6.0 -8.5 pH
 PO4.....2mg/L minimum
 NH3N.....2 mg/L minimum

Caution

Persons allergic to dust should use nose and mouth protection when handling the Aquapure™ Bio NP. In the event of direct contact with the eyes or skin flush the affected area with water.

Availability

Available in 25 lb pails or 100 lb. drums
